STEP-BY-STEP PROJECT DOCUMENTS

A set of separate PDFs covering the Customer Support Ticket Priority Prediction and Automated Assignment System.

Recommended reading order

- Step 01: Project Overview & Problem Definition — 01_Project_Overview_and_Problem_Definition.pdf
- Step 02: Stakeholder Discovery & User Needs — 02_Stakeholder_Discovery_and_User_Needs.pdf
- Step 03: Current-State Analysis & Requirements — 03_Current_State_and_Business_Requirements.pdf
- Step 04: Project Scope, Assumptions & Risks — 04_Project_Scope_Assumptions_and_Risks.pdf
- Step 05: Ticket Priority Framework & AI Analysis — 05_Ticket_Priority_Framework_and_AI_Analysis.pdf
- Step 06: Salesforce Data Model & Case Fields — 06_Salesforce_Data_Model_and_Case_Fields.pdf
- Step 07: System Architecture & Component Design — 07_System_Architecture_and_Component_Design.pdf
- Step 08: Salesforce Flow & Agentforce Implementation Plan — 08_Flow_and_Agentforce_Implementation_Plan.pdf
- Step 09: Reports, Dashboards & Success Metrics — 09_Reports_Dashboards_and_Success_Metrics.pdf
- Step 10: Testing, Validation & Acceptance — 10_Testing_Validation_and_Acceptance.pdf
- Step 11: Deployment, Training & Operations — 11_Deployment_Training_and_Operations.pdf
- Step 12: Project Roadmap, Risks & Next Steps — 12_Project_Roadmap_Risks_and_Next_Steps.pdf

How to use these files

- Read the PDFs in order, from problem definition through implementation and rollout.
- Upload the PDFs to a GitHub repository, ideally in a folder such as docs/ or project-documentation/.
- Use the requirements and acceptance criteria to guide implementation, and validate all organization-specific Salesforce details.

The documents describe a proposed solution, not a claim that the system has already been implemented.
